

Pure Blood

Is certain if you take Hood's Sarsaparilla.

It cures those eruptions, boils and pimples which appear at all seasons, cures scrofula sores, salt rheum or eczema and relieves the itching and burning; adapts itself equally well to, and cures dyspepsia and all stomach troubles; cures rheumatism and catarrh; cures nervous troubles, debility and that tired feeling.

This is not merely modern theory, but it is solid, up-to-date fact.

Proved by thousands of cures—40,366 testimonials in the past two years.

It is the world's greatest blood medicine. Get only Hood's, and get it today.

THIRD WIN FOR GIANTS

Shut Out Philadelphia For the Third Time Yesterday.

ONLY ONE RUN SCORED.

This Makes Fourth Shut Out in the Series for World's Championship—Boston Americans Eat Up the Nationals.

New York, Oct. 14.—A one run victory for the New York Giants, and another shut out for the Philadelphia Athletics was the issue of the fourth game between the two teams for the championship of the world yesterday afternoon. It is a peculiar fact that all the four games have been shut outs. The Giants have secured three victories, 3 to 0, 9 to 0 and 1 to 0. The Athletics won their only victory by the score of 3 to 0. There was a crowd of about twenty thousand out to see the game yesterday, there being so few in the field that ground rules were not necessary.

McGinnity and Plank were sent in to do the slab work, and the battle between the two was a pretty one to witness. Both pitched superbly, McGinnity showing some of the cunning which was his last year. Five hits was a small allowance for each team. Plank fanned five, to three by the "iron man." Mac also gave three passes, to two by Plank, but the latter evened up matters with a wild pitch. The teams supported their pitchers in fine style, but one error being chalked up against each.

Davis got one of the Athletics' hits, a single, in the first inning, but there were two out and L. Cross, the next man, fouled out, Bresnahan, a pitcher's terror, drew a pass as usual. Browne bunted and was out. Donlin's sacrifice to Plank put Bresnahan on third, but McGinnity was called out on strikes. Both sides were retired easily in the second, although Devlin worked in a double-sacker for the Giants.

In the third Plank hit a fast one at Dahlen and was safe, but the next three men, Hartzel, Lord and Davis, were victims in order. The Giants got two hits in the same inning, and then couldn't score. With McGinnity out, Bresnahan hit past M. Cross for a single, and Browne poked the ball into left for another single. Donlin and McGinnity both failed to bring in a score.

The Athletics also worked in two hits, to no avail, in the fourth inning. With two sent to the bench, Murphy sent a scorcher by McGinnity, and M. Cross worked in a safe home. Powers swatted a high one and Donlin got under it. The only score of the game came in this inning. Merces hit a nasty bouncer to Mr. Cross and got first easily. Dahlen's flounder was gathered in by Seybold and Plank got Devlin's jab. But Gilbert sent a beauty through L. Cross, and Merces scored. Hartzel threw home in an attempt to get Merces and Gilbert took second. McGinnity was out to Lord.

There was no near approach to another score until the eighth, when Bresnahan got another pass, followed by Browne, who bunted safe. Donlin hit to Plank, who got Bresnahan at third. Plank then threw out McGinnity and Merces at first.

Philadelphia's last try was feeble, Murphy flying out to Merces, and M. Cross and Hoffman fanning before McGinnity. During the entire game only eight Philadelphia men reached first base and only two of them got as far as second. That sack was their limit.

AN EASY VICTORY.

Boston Americans Put It Over the Nationals, 6 to 2.

Boston, Oct. 14.—Wretched work by both pitchers and fielders lost yesterday's game to the Boston Nationals, Collins' tribe scoring enough runs to win the game easily. Willis and Tannehill were the opposing pitchers, and the honors were with the American lad.

In the first inning the story is as follows: A pass to Parent, an error by Dolan on Selbach's high fly and Unglaub's single, scored one. A pass to Burkett and Tenney's error on Grimshaw's grounder scored another. Dolan's error on Freeman's fly scored two more.

In the third, Unglaub's triple and Burkett's out scored the fifth run. Burkett's double and Freeman's single gave the Americans their final run in the eighth.

Tenney's men did not score until the eighth. Then Batty doubled and Tenney followed with a single, sending the former in. Dolan lammed out a triple and Tenney crossed the plate. Delehaney ended the spurt by fanning.

The teams played a double-header today to close the series for the championship of Boston, and there is little doubt where the championship will go.

Chicago Nationals Won.

Chicago, Oct. 14.—Twelve thousand one hundred and eighty-four persons yesterday witnessed a pitcher's battle between White and Weimer, in which the Nationals won the third of the Chicago championship series, 3 to 2. The Nationals were held to three hits, two of which were made in the first inning. In the second inning White gave a pass, made a wild pitch, and, with Siegel's triple and two errors, the Nationals made their three scores. The Nationals have two out of three games played.

White pitched superb ball after this, and the Americans rallied in the eighth, but could not overcome the lead against them. Callahan's running catch of Chance's long fly was a feature.

St. Louis Series Tied.

St. Louis, Oct. 14.—Taylor made his third attempt of the post season series to pitch the local Nationals into a victory yesterday and failed for the first time, by the score of 2 to 1. The series now stands 2 to 2.

TITLE GOING TO BOSTON.

A Boston Player Will Win the Golf Championship.

Morris County Golf Club, Convert, N. J., Oct. 14.—Boston is sure of the women's national championship as the result of the matches yesterday morning in the semi-final round. Miss Pauline MacGann, last year's champion, by three up and one to play, while Miss Margaret Curtis beat Miss Keyes, also of Boston, six up and five to play, in the other match. This leaves Miss Curtis and Miss Mackay to meet in the final round today for the title.

TO DECIDE WHO THEY WANT

Many Tammany Leaders Think Mistake Was Made in Not Naming Him for District Attorney—Jerome Will Make Whirlwind Campaign.

New York, Oct. 14.—Although James W. Osborne was nominated by Tammany Hall for district attorney Thursday night with a great show of enthusiasm, there are many Tammany leaders who believe that a blunder was made in turning down District Attorney Jerome. A well known West Side leader said yesterday afternoon:

"By turning down Jerome, Tammany has paved the way for a red-hot campaign. Without considering Hearst, we have now against us Jerome and Ivins, two of the best campaigners in town. The youngsters don't know Ivins, but I know him, and I believe he has taken the Republican nomination for mayor just for the purpose of making it hot for Tammany during the next three weeks."

District Attorney Jerome said yesterday:

"I am in this fight to stay and will make it over the heads of the bosses directly between the people and myself. I repeat now, that nominations of party candidates are made by one man and sometimes by a coterie of men. These men are usually selfish, wholly irresponsible and not infrequently corrupt. It makes no difference to me whether I am elected or not. I can make a living, but at the same time, I shall put up a strong fight."

The candidacy of Jerome was a problem before the Republican district leaders yesterday, the solution of which divided the organization. The conference called yesterday morning to make the county slate adjourned after several bitter speeches had been made and the matter was put over until yesterday afternoon.

William M. Ivins, the candidate for mayor, was said to be urging Jerome's endorsement. Halpin, the county chairman, wanted him, and so did the leaders of the old Republican districts and the leaders of the lower East Side.

Abraham Gruber was against Jerome, and he whipped a string of leaders into line behind him. There is no doubt but that the opposition made political capital of the death of Armitage Matthews.

WHITNEY TO WILLIAMS.

Charges Latter with Tricks of Demagogue.

Boston, Oct. 14.—Henry M. Whitney, the Democratic candidate for lieutenant-governor, yesterday issued an open letter to George Fred Williams, in reply to the one which the Doham ex-representative issued Thursday night, in regard to the West End investigation.

Mr. Whitney says that he welcomes the opportunity afforded by Mr. Williams' letter to show to the public the injustice of charges under which he has labored for fifteen years. He says that he invited Mr. Williams to come to his office to see the West End's plans but that Mr. Williams, like a demagogue, refused to do so. He declares that, with the tricks of the demagogue, Mr. Williams endeavored to create prejudice against the West End; that he sought to give another party the right to build an Elevated system, which would have burdened the community with another far, would have fished from the pockets of the poor, many of whom were patrons of the road, an additional five cents from every man that travelled over the road, when weary from his toil, would have added many additional minutes to his trip home.

Mr. Whitney also asserts that when Mr. Williams' scheme had been shown to be absolutely without merit, Mr. Williams, out of revenge, turned around and made charges of corruption against him.

Mr. Whitney says: "I freely admit giving the dinners, employing counsel and making use of the lobby; but it was to prevent the accomplishment of an infamous purpose which was championed by you in violation of your oath. You were seeking to sell out personal interests which you were entrusted to guard, for your own personal gain, not indeed in money, but in notoriety, which you valued more highly."

MAY MODIFY GAME.

But Little Hope of Making Foot Ball Less Brutal This Season.

According to the New York Herald circulars will be sent in a few days to the collegiate athletic world from the football experts, who, last Monday met President Roosevelt, in which it will be suggested that brutality be eliminated from the American game.

The contests which are scheduled for this season will be played in accordance with the prevailing rules. At the annual meeting of the Football association, to be held late in the winter at Philadelphia however, it is expected that changes which have been spoken of with such force by the President, will be thoroughly considered.

Of the three best known of the experts who attended the White House conference, Professor Reid of Harvard and Professor Fine of Princeton are of the opinion that the game can be so modified that there will be less brutality. Walter Camp of Yale declared last night that under the present rules the roughness of the sport could not be abolished. Mr. Camp said he would make a statement as soon as the President released him from the pledge of temporary secrecy which had been given.

"COMPLETELY DISCOURAGED"

Is the feeling and plaint of women who are "run-down" so low that work drags, head aches, back aches, hands tremble, voice quivers, little things annoy and "everything goes wrong."

Look the other way just a minute and see what Dr. Pierce's Favorite Prescription has done for more than a half-million women in the last thirty years.

What it has done for others it can do for you. Believing that alcoholic, stimulant, laxative, medicines were doing much harm, Doctor R. V. Pierce turned his investigating mind upon the problem of producing a remedy for the use of weak and suffering women that should be free from alcohol and at the same time EFFECTIVE AND SAFE.

Nature has provided abundantly for such needs, and Dr. Pierce found in native medicinal plants such as the roots of GOLDEN SEAL, LADY'S SLIPPER, BLACK COHOSH, UNICORN and BLUE COHOSH, the needed medicinal properties which by peculiar processes strictly his own, without the use of alcohol, he has extracted, preserved and combined in exact proportions to secure from each its best effect. Thus compounded his "FAVORITE PRESCRIPTION" is a remedy for the pains and drains, weaknesses and inflammation of the uterine system that has won world-wide fame by curing more than ninety-nine out of every hundred who have used it properly.

In taking this you will know what you take and take what you know to be good. If in any doubt as to what is best for you, write and ask advice of Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y., and reliable medical advice will be sent you by return mail in securely sealed envelope. All correspondence free and strictly confidential.

Doctor Pierce's Pleasant Pellets the favorite family laxative. One "Pellet" a laxative, two "Pellets" a cathartic dose.

Is Not Mentally Responsible, Say the Railroad Officials—Did Not Sell or Dispose of Articles Taken.

Boston, Oct. 14.—On the recommendation of his prosecutors, Raleigh D. Morrill, the young Tech student, who was arrested about ten days ago on the charge of stealing baggage from the South station, where he was employed, was placed on probation in the municipal court yesterday morning, full restitution having been made to the New York, New Haven & Hartford railroad.

Morrill assisted the baggage master on the Plymouth division. Early in September many pieces of baggage, grips, bags, etc., disappeared. Chief Valley and Detective Bourke of the railroad's secret service squad were put on the trail and irregularities were discovered in Morrill's records and methods. For example, a trunk and bag worth \$202 which had been shipped to Yarmouth, Mass., failed to reach their destination.

Morrill learned in some manner that he was suspected, and made a flying trip to his home, where he had sent the missing trunk and grip. He brought them back to Boston with him, and had them forwarded by the Armstrong Transfer to the baggage room of the Plymouth Division. The checks were sent through the mail.

A search of Morrill's room revealed an amazing assortment of property which had been secretly transferred from the South station baggage room, representing thousands of dollars' worth. In his room were found also burglar's masks and implements which he declared were a part of his curio collection.

The railroad authorities claim that nearly \$16,000 worth of property has been stolen from the South station from time to time. A large portion of this was traced to Morrill, and recovered. The complaint against the '07 student merely specified the trunk and bag which he sent to his Vermont home.

"The railroad thought it best to drop the complaint," said one of the corporation officials yesterday. "Morrill made a clean breast of everything and assisted us in every possible way. Everything he took has been recovered or entirely made up for. Complete restitution has been made, and feeling that he was not mentally responsible, we decided not to prosecute. He has fine people and it was a severe shock to them. He did not attempt to dispose of anything he had stolen, nor to convert the property into money. It is clearly a mania."

Prof. Hugo Lieber of this city has been experimenting in injecting radium into the tissues without the use of rods or sheets of celluloid. He said that three cases of tumor and cancer had been treated with remarkable success.

London Lancet Has Article Ready—Fears Hopes May Prove Ill-Founded.

New York, Oct. 14.—According to a London cable, the Lancet will say on Saturday: "Prof. Behring is a pathologist of world-wide reputation, with a splendid record of past achievements, and we may hope that his confidence in his own work will once again be justified. Nevertheless, we cannot but deprecate the great publicity which has been given to an invention, which at the present time is very far from complete."

In showing the inadvisability of premature publicity as to cure for consumption, the Lancet emphasizes the fact that it is calculated to raise hopes that at best are only realizable in the distant future.

After a six weeks' session, Rutland county court adjourned Thursday.

WHISKEY OR FOOD

WHICH DO YOU TAKE?

Here Are Some Interesting Remarks on the Subject.

"To be Or not to be: That is the question."

To be strong and healthy or to be weak and sickly; which do you prefer? Health is a gem of priceless value and with health strength can be acquired. Strong men and women are the Nation's pride and are responsible for the proper development of future generations. To become strong, one must have lots of good healthy flesh from which to develop muscle.

Persons leading sedentary lives and those employed in factories, mills, etc., do not have the natural strength which is possessed by those whose occupations keep them out of doors. Inactivity and confinement indoors cause a relaxation of the muscles and consequently strength does not develop.

What shall be done for these people? Many turn to stimulants and get temporary relief, but the effect is not lasting. Others take the various remedies which are offered, but these are worse than nothing. Most of them contain a large percentage of alcohol, and while they may produce an exhilarating effect at the start, their use works untold injury. They slowly but surely disarrange the system and when their use is discontinued, the reaction sets in which leaves the victim in a condition where it is necessary to use energetic measures. An examination of the tissues of the body will disclose the fact that the alcohol which is being taken into the system inflames and consumes them, instead of healing and building them up.

What shall be taken when our system is run down and our vitality low? Obviously what is needed is a food that produces fat and repairs the wasted tissues; something that enriches the blood, and increases circulation; a builder, not a destroyer.

Such a food is Mace's Emulsion. It is a combination of pure Norwegian Cod Liver Oil with Malt Extract and Hypophosphites of Lime and Soda. The oil is fat and makes fat in the body. The malt, according to physicians, is the highest form of food known, and the Hypophosphites are a tonic. You thus get a food, a medicine and a tonic combined. If you are run down Mace's Emulsion will build you up just as surely as the sun will rise on the morrow. It guards you against Colds, Grip and Pneumonia by putting your system in shape to withstand the ravages of winter weather. It builds up steadily and holds all it gains for you.

Beware of the wine preparations of cod liver oil. They contain no oil and consequently cannot produce the fat which is desired, and the alcohol in them tears down instead of building up the tissues.

Remember Mace's Emulsion is non-alcoholic; it contains no wine, no whiskey; it is food and food alone. It may be procured of E. A. Brown, Druggist, 48 North Main street, Barre, Vt.

TO TAP THE CATSKILLS.

New York Would Add Greatly to Its Water Supply.

New York, Oct. 14.—The volume of water needed by New York city for drinking and domestic purposes in the next 20 years is estimated by a special commission to be a regular flow of 500,000,000 gallons a day, and an emergency supply of 100,000,000 gallons daily. The commission recommends that about \$163,000,000 be spent immediately in adding 250,000,000 gallons a day to the present water supply. It is proposed to bring this great volume of water from the Catskill mountains by an aqueduct.

Next Session in Vermont.

Boston, Oct. 14.—At the session of the New England branch of the Woman's Foreign Missionary Society, in Brookline Thursday, it was voted to hold the convention next year at Bellows Falls, Vt.
